Then work the CHAMBER SETS, BOOK CASES, CAY JOURNAL. merits before closing a bargain anywhere else. this will be the length. Then work the figure thus: Suppose girth of bullock 6 feet 4 inches, length 6 feet 3 inches, which multiplied together make 23 square superficial feet, and these multiplied by 23—the number of pounds allowed for each superficial foot of cattle measuring less than seven and more than five feet in girth—make 759 pounds. When the animal measures less than is Mor chants, Banks, Hotels, Professional Men County Officers, or by the public gener-ally, executed on short notice, in the best style, and at the lowest prices. If you do not like it you need not buy, and by ex-By means of an arrangement with the puamining it you may find it to your advantage O. G. PRATT. AND WOOD SEATED CHAIRS, TAishers of this Splendid Illustrated topurchase of us. would not harm any living creature.

She walked to the edge of the pond and watched the gambols of the ducks and geese. Some of the young ones were such tiny things and looked so like balls of yellow cotton, that Jennie could not help laughing at their comical appearance.

Many of the large geese were snow white, and they sailed about so majestically that she thought they must be very proud and very wise geese, indeed.

veniently at hand, take one tablespoonful of guano to a gallon of warm water, let it stand in the sun all day and apply and then gave noteworthy sketches of his own college career and associates.
